

Manitoba FASD Coalition

Join us for an Information Series Workshop

Strengths-Based Research - Adults with FASD and Their Caregivers

Friday, February 24, 2023, 12 - 1:15 p.m.

This is a FREE event sponsored by the Manitoba FASD Coalition and the Manitoba FASD Family Network

Session will run from 12:00 p.m. to 1:00 p.m.

Join us February 24th to hear from Dorothy Reid and Katy Flanigan of the CanFASD Research Network (CanFASD), as well as Niall Schofield and Lauren Richardson of CanFASD's Adult FASD Expert Collaboration Team, as they provide an overview of strengths-based research in FASD and share preliminary findings from projects underway at CanFASD. Throughout the presentation, we will discuss the importance of shifting the narrative around FASD to focus more on strengths and successes. We will also bridge the connection between lived experience and research and discuss examples and strategies for putting strengths-based approaches into practice.

This workshop will be of interest to service providers, caregivers, folks with a diagnosis of FASD and anyone else who has an interest in learning about the latest in strengths-based FASD research.

The Info Series Workshop will be in the form of a Zoom webinar. Please register in advance,
